🪪 PROFESSIONAL SUMMARY

Front-end Developer with 2+ years of experience at MPL, a unicorn startup. Proficient in React.js and Next.js, I've successfully developed and deployed feature-rich websites, integrating third- party codes for enhanced marketing and analytics. I optimized website performance, reducing page load times and increasing user engagement. Adept in server-side rendering, responsive design, and code debugging. Collaborative team player skilled in cross-functional teamwork, eager to contribute my technical prowess to dynamic front- end projects.
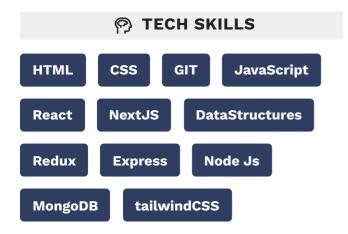

🎓 EDUCATION

Full Stack Web Development
Masai School
10/2020 – 05/2021 | Bangalore, India

| HTML | CSS | GIT | JavaScript |

| React | NextJS | DataStructures |

| Redux | Express | Node Js |

| MongoDB | tailwindCSS |

💼 PROFESSIONAL EXPERIENCE

Software Development Engineer-1
Mobile Premier League (MPL)
06/2021 – present | Bangalore, India

1-Worked on web apps, page performance
- Developed and maintained MPL's web applications using React.js and Next.js.
- Implemented third-party codes for marketing and analytics to track user interactions and optimize website performance.
- Collaborated with cross-functional teams, including UX designers and back-end developers, to deliver new features and improvements.
- Contributed to the optimization of website performance, resulting in improved page load times and user engagement.
- Worked on website localization, ensuring a seamless user experience for the audience in their native language.
- Demonstrated knowledge of server-side rendering and implemented best practices for code that optimizes page speed and improves SEO.
- Applied responsive web design principles for optimal user experiences across devices.
- Proficient in code debugging, ensuring high-quality and bug-free applications.

2-Worked on strapi cms dashboard
- Utilized a headless CMS (Strapi) for efficient management of website content.
- Proficiently design custom content models in Strapi for tailored content management experiences.
- Skillfully leverage diverse databases for optimal data storage and retrieval strategies.
- Create seamless API integrations, enhancing application functionality and user experiences.
- Ensure secure authentication and role-based access control for data integrity.
